DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, drawn to users registering for said presence of service, classified in class 709, subclass 225.
- II. Claim 17-21, drawn to inviting user to exchange contents, classified in class 709, subclass 206.
- III. Claim 22-25, drawn to Instant messaging service, classified in class 455, subclass 466.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I - III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as lacking inviting user to exchange

contents, instant messaging, particulars. Invention II has separate utility such as lacking instant messaging, particulars. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for one group is not required for another group, restriction for examination purposes as indicated is proper.

5. A telephone call was made on 03/01/05 to Francis J. Maguire request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
